MARRIAGES.

Miss Eliza Harris, of Kimbrell, Estill county, and Mr. Wm. Bartlett, of Clark county, were married at the Allensville Baptist church Tuesday, November 28.

Mr. Walter Vivion, of this county, was married in Lexington this week to a Miss Love, of Clark county.

True Americans Left.

This country still has many things to thank God for, among them being the fact that there

are Americans so poor that they haven't the price of their own funerals, but who yet would not change places with rich men who acquired their wealth by thievery and dishonesty.

The official canvass of the ninety-three counties which reported the constitutional amendment at the recent election in Kentucky shows that 55,578 persons voted for a return to the open ballot, while 94,449 were against it. Twenty-six counties made no report of the vote cast.

In Union There is Strength.

Since the recent State Development Convention in Louisville, the Louisville Commercial Club is more strongly imbued than ever with the possibilities awaiting Kentucky. It believes that every community in the State can profit by this awakened interest, but it is as firmly convinced that the profit can be greatly enhanced through an organization of the working forces of the different towns. By working forces is meant the mercantile and industrial lines of the different sections. In brief, the Commercial Club feels that a most desirable way to meet and overcome difficulties confronting a business community lies in the organization of a commercial body. It believes this so strongly that it has appointed a standing committee, whose sole duty it is to assist in the organization of business clubs throughout the State and in revivifying bodies which have temporarily lapsed into activity.

Mr. R. A. McDowell, former president of the Club, has accepted the chairmanship of this committee, and has appointed as his associates thereon fifteen leading spirits of Louisville's commercial world and ten prominent editors in different parts of Kentucky.

The Louisville Commercial Club has no axe to grind in the step it is taking to organize more commercial bodies in the State. Its board of directors feel such an interest in State development, as was shown in the recent convention in Louisville, that it is willing to expend a large part of its funds in sending representatives to different cities to work up organizations of the kind mentioned.

Any community that desires to take the step indicated will receive from the Louisville Commercial Club a copy of its by-laws and constitution, with suggestions as how to stir up interest in the organization. When the iron is hot enough to be struck the Commercial Club will send a representative to help mold the body into definite form.

Valuable Find.

Near Stanton on the farm of Mrs. R. A. Bohannon has been found a valuable composition of clay and stone. From this it is claimed that a very fine grade of Portland cement can be made. Two cars of the raw material is said to have been shipped to other factories and found to be of superior value. It is rumored that Mrs. Bohannon has been offered \$50,000.00 for her farm which she bought about one year ago from G. B. Conlee for \$2,000. We trust that all of the above is true and that old Powell will yet come out of the ruts on some strong footing.

A project is on foot to erect a million dollar hotel in Lexington with the Phoenix Hotel as a nucleus. The plan is to enlarge and raise the present building to seven or eight stories high, and remodel and refit the old time hostelry to all modern appointments.

Not Dry Yet.

According to a recent ruling of the Court of Appeals, Local Option elections held in towns where registrations are required, must provide before the election special days for registration. According to this ruling, the local option election held in this city and Stanton last January is null and void, and as there is an action pending in the Circuit Court to knock the election out on these grounds, it seems that the temperance people are up against it, for the inevitable confronts us.

This is a shame. This is twice that the Local Option has carried in this county, and each time to be knocked out, thereby overruling the will of the people in this matter on the technicalities of the law, is very discouraging. The county has been out the expense and for no good. Some one is at fault for this. We can't blame the whisky dealers, for that is their business; we can't blame the court for it is a matter of law; we can't blame the voters, for they did their part. The people of Clay City and Stanton have been imposed upon by some one. This election has twice been declared illegal. Is it possible that we can't hold a legal Local Option election? It looks that way.

We favor the calling of another election at the earliest possible moment and get, if possible, every technicality of the law interpreted before the election is held, so there will be no doubt of its sticking.

The people of every precinct and town in Powell county want local option rule, they prove it by their vote at every opportunity they have. And just as often their righteous will and wishes have been thrown down.

The Difference.

It is estimated that fifteen thousand dollars worth of turkeys were sold in the territory tributary to this town in the past two weeks.—Owingsville Outlook.

What has been done by the farmers' wives around Owingsville can also be accomplished by persons living in contiguous territory to Clay City. It is nothing unusual for a farmer's wife in the bluegrass counties to sell \$100 worth of turkeys each fall, and during the year she will sell, more than likely, more than that amount in eggs and other poultry, easily making at least \$200 per year for each farmers' wife. Don't you think that would help us? We do, and hope the persons who should be the most interested will take the matter up at the proper time.

C. W. Hundley, of Irvine, has patented and sold a railway switch of superior worth. The consideration of the sale has not been learned by us, but it is said to be very remunerative.

We wish for every reader of the TIMES a sincere and pleasant Thanksgiving.

You ought to see those pretty Hats at Mrs. J. W. Williams! and at prices to suit every one.

SPOUT SPRING.

To-day is Thanksgiving and all our people are surely ready for it.

Dr. C. H. Williams has gone to Catlettsburg to look after some business matters.

James F. McKinney is at his Clark county farm this week looking after the gathering of a large corn crop.

Asa Barnett and Tommy Christopher, two of our accomplished young men, attended the supper at Clay City Saturday night.

Elder George W. McIntosh will preach at the Baptist church Saturday and Sunday mornings. We trust a good crowd will come out on these days.

Since the hog killing season has arrived, our folks are living fine, and many there be who have replenished their larder in the past several days.

Hal Cockrell and George Williams, of Irvine, were here a short while last week on a hunting trip. They were the guests of Elder Geo. McIntosh while here.

Elder B. Frank Wright was taken very sick Saturday at his home near this place with some form of malignant stomach trouble. Dr. Williams was called in Sunday who soon gave him relief.

W. E. Heflin sold last week six fat hogs, average weight 285 pounds, to E. C. Hainline, of Montgomery county, for five cents per pound. These hogs were engaged some time in October.

Irene, the little three year old girl of Mr. and Mrs. Benny McKinney, formerly of this place, has been very dangerously ill of diphtheria, but is now, we are glad to state, improving.

Russell Christopher was married Wednesday, November 24th, at the residence of the bride's father, Luther Martin, near this place in Powell county, to Miss Nellie Martin. The groom is a very quiet and clever young man, while the bride is a very popular school teacher of Powell county. The happy pair are receiving the congratulations of numerous friends in this community.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Educational.

"We talk much about our natural resources, and we invite all the world to come and live with us because we have good air and good water and good timber and coal and iron under the ground—in other words, because God has been generous to the land. Well, the truth is, the land was really richer when the Indians held it than it is now; and the water was just as good, the air was just as pure, and there were more forests and more iron and coal than there are now. For that matter, there are undeveloped regions in South America that have many natural advantages even over the great and varied natural advantages of our State.

"This program of sheer dependence on Nature. It implies the old conception of education, the old conception of wealth-creation; for it takes no account, or little account, of the part that men play in making wealth. Within reasonable limits, it matters little what Nature has done for a country. If you take any land in the temperate zone and put well-trained men there, the land will turn out to be all right. What did Nature do for Holland, which is the most densely populated country of Europe, and one of the most thrifty and happy? Nature overflowed it with the sea, and man had to reclaim the very soil he lives on. I know a part of our own country poorer in natural resources than almost any other part, and yet the people who live there make more kinds of useful and beautiful things than the same number of people make anywhere else in America and more of them are rich or well-to-do than the people in any other part of the country. And education engages as large a part of the population as any other single industry, and there is as much money spent on school-houses and their equipment and on libraries as is spent in the equipment of any single industry.

"While natural resources count for much, the community where the people are trained to profitable industry is the community to which other men go to live, and they will go from all parts of the world. After the first pioneer settlements are made, it is trained men that attract men rather than natural resources. The right training of men is a better thing than the bounty of Nature itself. Nature alone never made prosperous States."—Walter H. Page.

"Ignorant people do not know how or when or where to develop the gifts of nature, and they sit and do nothing until others who are better educated in science and industrial arts come in, seize the available opportunities, pursue

chase for a pittance the undeveloped possibilities, and thus become wealthy, while the native population remain poor in the midst of surrounding natural wealth."—S. G. Heiskell.

"The great masses of our people are paying, with hard labor at 75 cents a day, for improved machinery invented by educated brain and manufactured by tained hands at not less than \$4 to \$5 a day. This is a tariff of \$3.25 to \$4.25 per day levied upon us by education. We work at 75 cents a day to pay for a thing the makers of which get \$4 to \$5 a day for their work."—Superintendent Joyner, of North Carolina.

We all want Kentucky developed, but why not educate our own people for the purpose, and let the wealth of the state go to Kentuckians? At present, some of the richest portions of the state are passing into the hands of Northern and Eastern Capitalists, to be developed by educated men from other states, while the hardest of the work will be done by ignorant Kentucky citizens as day laborers.

Let our motto ever be "KENTUCKY FOR KENTUCKIANS," and let's make it possible by educating the next generation according to the demands of the age.

Contributed by the Educational Improvement Commission of Kentucky.

According to statistics the people of this country use about 400 pounds of sugar to each family. This includes, of course, the amount of sweets in candies, syrups and all prepared goods. This means an expenditure for each family of \$20 00 per year. This sugar costs in labor about one cent per pound and the people pay, therefore, about \$15 00 per family to the non-producing class in the various forms of profit to the refiners and dealers. Is your sugar any sweeter because of this \$15 00 per year you give the monopolists?

When the farmer pays seventy dollars for a wagon that the working class receive only ten dollars for making, how can the latter pay the farmer a good price for his products? Not one farmer in ten thousand knows that wagons are produced for less than ten dollars in wages, yet the government has issued statistics to prove it.

For Pain

Take a Dr. Miles' Anti-Pain Pill, and the Pain will disappear Like Magic.

Not by paralyzing the nerves and glands, like opium, morphine, cocaine, and other dangerous drugs, but by increasing the natural secretions.

This action is obtained as a result of modern discoveries in medicine, making it possible to relieve pain without bad after-effects.

You can safely depend upon Dr. Miles' Anti-Pain Pills to relieve and cure such pains as Neuralgia, Headache, Stomach-ache, Menstrual Pains, Rheumatism, Backache, Toothache, etc.

They will also, by their calming action on the nerves, almost instantly relieve such distressing feelings as Dizziness, Car-Sickness, Indigestion, Irritability, Sleeplessness, Nervousness, etc.

Not merely do they relieve, but they also absolutely cure, because by persevering in their use, you do away with the cause.

Dr. Miles' Anti-Pain Pills are guaranteed that first package will benefit, or your money back. Never sold in bulk.

"I am thankful for the good Dr. Miles' Anti-Pain Pills have and are doing me. Ever since the war I have had spells of severe throbbing headache, caused by catarrh, until six years ago, I began taking Anti-Pain Pills, the only remedy that ever gave me relief. Since then I have not had one hard attack, because I take a pill and it overcomes the difficulty."—GEO. SAUNDERS, Greensburg, Ind.

BEAUTIFY YOUR HOME WITH KINLOCH PAINT

Important Memorandum—The painter is the most important factor in painting. A job cannot be done by a good painter with the best quality of paint, unless the paint is of the best quality. The painter's job is to get the paint on the wall in the best possible way. The painter's job is to get the paint on the wall in the best possible way. The painter's job is to get the paint on the wall in the best possible way.

A small investment in paint adds greatly to the value and beauty of your property and makes you a "good neighbor" by making a good neighborhood. Good painting is one of the best investments and pays big returns in improved values. It's a saving, not an expense. But when you paint—buy only

Kinloch PAINT

There's one indisputable reason why, a reason every honest painter will acknowledge—"The Oil is the Life of Paint," and the sure way to get good oil is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can. The paint that is ready to mix with linseed oil, gallon for gallon, is KINLOCH PAINT, and we recommend it for every good reason we know.

LOCAL BREVITIES.

T. M. Morrow has retired from the management of the Jackson Hustler.

A. D. Campbell, of Irvine, is here visiting his son, Prof. C. W. Campbell.

If you want to always be on time keep your watch in good repair. See Webb.

If today is Thanksgiving, the fruitless hunter will not be disposed to give any thanks.

A number of our citizens have been attending Circuit Court at Stanton this week.

Mrs. Amos Cain has been quite ill at her home near this city, but is now improving.

J. R. Neal, of Wisemantown, was here Friday the guest of his brother, W. H. Neal.

C. C. Eaton visited home folks a few days this week. He left Monday evening for Somerset.

What has become of Clay City's Commercial Club? Now is the time to get together and pull for greater Clay City.

Watch that gun today closer than you do the game and possibly you will evade any accident.

Miss Floretta South, of Jetts, Franklin county, visited Miss Bertha Maple and other young friends in the city this week.

Pattern Hats altered or copied while you wait at Mrs. Williams' Millinery Store. Clay City Ky.

The trial of Matt Tracy for the murder of Jim Willie Ware has been continued in the Stanton Circuit Court until the regular March term.

Letcher Dalton, of West Bend, will have a public sale of all his personal property at his residence one half mile from Argyle station. See posters for particulars.

The five year old daughter of John Thorp, of Madison county, while playing in a barnyard, was attacked by an old sow and was fatally hurt. The animal had carried the child to a small thicket and had to be killed before the child could be rescued.

Born, to Mr. and Mrs. John Savage, of Birmingham, Ala., on the 14th inst., a son—Clayton. Mrs. Savage is a daughter of Mr. and Mrs. G. M. Clayton, formerly of Clay City, now residing in Birmingham. Mr. Savage is a well known railroad man.

Anderson Acquitted.

Campbell Anderson, who killed Kale Martin on Black Creek last fall and seriously cut Thos. Martin, father of Kale, has been on trial at Stanton this week, but was acquitted of the charge. Phillips and Spencer were the lawyers for the defense.

Our City Graded School is progressing very nicely. A new class of several members has been recently started in book keeping. This is a new branch for the school, but is a very valuable addition to the routine of studies. There will be eleven in the graduating class in the spring.

The supper at the Gymnasium Hall Saturday night given by the Methodist Home Mission Society, was a success to the extent of realizing \$25 00. The ladies are to be congratulated for their successful endeavor. The Presbyterian Ladies Aid will give a Bazar at the same place December 15.

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed at Swann-Day Lumber Co's store; 25c.

We are in receipt of a copy of the Carrizo Colorado Miner which contains a memorial of Mrs. Mahala Curtis, who formerly lived near here, and whose death notice appeared in these columns last week. In this article which was written by one of her neighbors and friends is indeed a most beautiful tribute. Any relative or friend of the deceased who desires to read this tribute can do so by calling at this office.

A Fearful Fate.

It is a fearful fate to have to endure the terrible torture of piles. "I can truthfully say," writes Harry Colson, of Masonville, Ia., "that for Blind, Bleeding, Itching and Protruding Piles, Bucklen's Arnica Salve, is the best cure made." Also best for cuts, burns and injuries. 25c at Swann-Day Lumber Company's store.

We cannot get along without homegrown plums and peaches. The immature product from Georgia and the attractive but insipid leather jackets grown in California do not fill the void. From the writer's standpoint the promising plan is to continue planting the varieties of greatest local promise. If frost or scale get the best of a tree, dig it out and plant a healthy new one. Count it good luck as well as careful management to get a crop or two. One ripe, luscious home fruit is worth a basket of the long-traveled, cold-storage article where quality is a consideration. The bying public is being rapidly educated to this point of view. Well-grown local fruits of this character are in constant demand, and take immediate precedence when offered. The ear of boom peach orchards in distant locations, with accompanying heavy transportation and storage charges, will soon pass, and everywhere buyers will demand the best possible home-grown fruits. The difficulties at present confronting the Northern peach grower are great, but can be surmounted by intelligence and skill.—Ex.

There is nothing more provoking than an incorrect time piece. If you have a watch or clock of this kind take it to Webb, Clay City's Jeweler and silver smith, and let him fix it. All work guaranteed.

DRAGGING

down pains are a symptom of the most serious trouble which can attack a woman, viz: falling of the womb. With this, generally, come irregular, painful, scanty or profuse periods, wasteful, weakening drains, dreadful backache, headache, nervousness, dizziness, irritability, tired feeling, inability to walk, loss of appetite, color and beauty. The cure is

WINE OF CARDUI Woman's Relief

that marvelous, curative extract, or natural essence, of herbs, which exerts such a wonderful strengthening influence on all female organs. Cardui relieves pain, regulates the menses, stops drains and stimulates the muscles to pull the womb up into place.

It is a safe and permanent cure for all female complaints.

Wm. Davis' saw mill caught fire last week and burned the saw cab and belt for him. It seems that Mr. Davis is having bad luck as this is the second time the mill has been on fire in the same hollow.

Prisoner Leads Officer to Jail.

Frank Hawk Stepp, a fifteen-year-old boy, of Harlin county, arrived in Frankfort Tuesday accompanied by Thos. Ward, deputy sheriff, who was too drunk to know what he was about. Stepp inquired the way to the penitentiary, stating that he had been sentenced there for 21 years, but that the deputy sheriff was too drunk to find the way. The pair was taken in custody by the police who upon search of the drunken deputy, found the commitment papers. Stepp was placed in prison and Ward in jail for being drunk.

Stepp told Governor Beckham that he had killed his cousin, as the result of a quarrel over family matters, and that he was willing to serve the sentence of 21 years for the deed. An effort will be made to have the boy paroled or transferred to the School of Reform at Lexington.

C. B. Lowry, formerly of this city, but now a timber dealer of Lexington, has patented a timber impregnating apparatus, which is said to be of much value. Owing to scarcity of timber, it is now recognized that something must be done to prolong the life of timber used which is exposed to the weather, so many applications of various chemicals have recently been applied, especially to cross-ties, and it has been found that ties so treated last from five to eight years longer than when they are not so treated.

As we understand Senator Platt's testimony, those insurance officials just insisted upon sending money around to his office about election time, and he did not have the heart to offend them by refusing it.

Cinders and pretty girls are hard to remove from a man's eyes.

But few men ever live long enough to realize their own unimportance.

NOTICE.

Thanking my patrons for their liberal patronage in the past, and the many kindnesses extended, I will say that the cold weather is close at hand and owing to my health being bad, I will close my gallery very soon. Now for a short time, I can sell a few very nice frames at very Low Prices and would like to see as many of my friends that want photos for themselves and families as can come in before the roads are bad and those that have work already finished in the gallery, are respectfully requested to come and pay up and take the work out because I need the money, and it is right that I should have it. Thanking every body for favors I am as ever. J. W. HENRY.

If You ARE A Democrat

Or if You are not You will want to read

Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, binding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner one year both for \$1 10.
